

PRODUCT SHEET

IGU

This product sheet explains the requirements and rules for designing a SageGlass IGU and placing the pigtail. Consult SageGlass for any special requests. When designing an IGU, first take note of the information provided in this guide. Then determine what the appropriate information is for your design:

- IGU Design
- Tolerance Allowed
- Basic Dimension Needs
- Rules and Constraints

IGU RULES

- Any angle must be $\geq 30^\circ$ and $\leq 150^\circ$
- If the installed width is greater than 2286 mm (90"), the roller wave will be vertical as installed
- Edge finish will be standard seamed

RECTANGLE RULES:

- Maximum Length: 3048 mm (120"); other dimension must be:
 - ≤ 1828 mm (72") for Double Glazed Units
 - ≤ 1795 mm (70.7") for Triple Glazed Units
- Minimum Dimension: 350 mm (13.8")
- Triple IGUs - Both sides must be ≥ 840 mm (33.1")

NON-RECTANGLE SHAPES RULES:

- Shape must be larger than a bounding box of 350 mm (13.8") x 350 mm (13.8")
- Shape must be smaller than a bounding box of 2975 mm (117.1") x 1498 mm (59")
- Minimum length of any side, for shapes except the pentagon, ≥ 120 mm (4.72")
- For Pentagons, minimum length of any side is ≥ 220 mm (8.66")
- Bounding box of all shapes defined by L x H

PRODUCT SPECIFIC RULES:

HARMONY®

- Rectangles only
- Maximum Width: 1828 mm (72")
- Minimum Height :
 - 1200 mm (47.2") when width is ≤ 1600 mm (63")
 - 1400 mm (55.1") when width is between 1600 mm - 1828 mm (63"-72")

LIGHTZONE®

- Rectangles only
- Maximum width 1524 mm (60")
- Minimum Zone Area: 0.19 m² (2 ft²)

TOLERANCES

The standard IGU length and width tolerance is ± 2 mm (0.08"). The tolerance increases to ± 3 mm (0.12") if a side is ≥ 1981 mm (78"), if a lite or laminate thickness is ≥ 8 mm (0.31"), or if it is a triple IGU.

The thickness tolerance is ± 1 mm (0.04") for double IGU and ± 2 mm (0.08") for triple IGU.

SHAPES

SageGlass IGUs are available in a wide variety of shapes to enhance your building designs. Determine which category your desired shape falls into by matching it to one of the diagrams in the tables below. Provide SageGlass with the requested dimensions. The measurements needed for each shape are indicated (e.g., L, L1, H, or H1). Reference the *Shapes: Dimensions & Pigtail Placement Section*.

IGU CROSS-SECTION: DOUBLE PANE

IGU EXTERIOR: DOUBLE & TRIPLE PANE

* Logo can be positioned on either bottom corner depending on the pigtail position.

* Dimension increases if spacer inset increases

IGU CROSS-SECTION: TRIPLE PANE

PIGTAILS

The available pigtail locations depend on the IGU shape and size. See the diagrams below for possible pigtail locations for each IGU shape.

RULES & CONSTRAINTS:

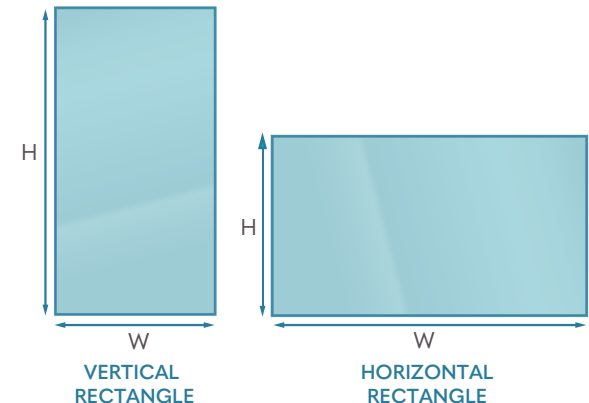

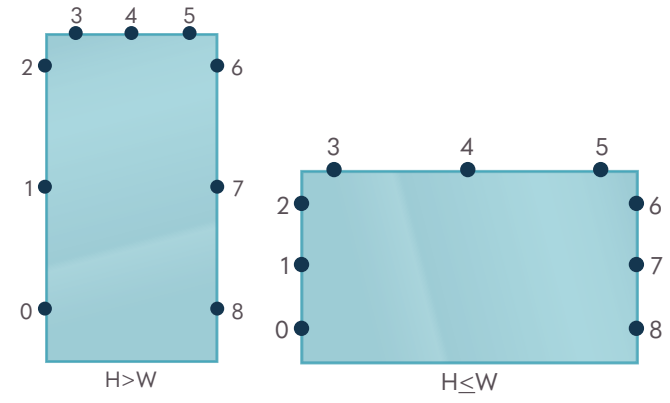

- Pigtail cannot be on installed base.
- Pigtail cannot be on production base.
- If IGU side with pigtail is between 250 mm (9.8") and 500 mm (19.7"), then the pigtail must be centered on that side.
- Length of side with pigtail must be at least 250 mm (9.8")
- If the IGU is filled with krypton, the pigtail cannot be on a side that is < 400 mm
- Pigtail not allowed on step side

STEPS

- Step(s) only allowed on rectangles
- Step(s) only allowed on support lite
- The maximum dimensions for IGUs with steps is 1795 (70.6") x 3048 (120")
- Step must be ≥ 19 mm (0.75") and ≤ 140 mm (5.51")
- Up to two sides of the rectangle may have a step
- Both long sides of the rectangle cannot have steps

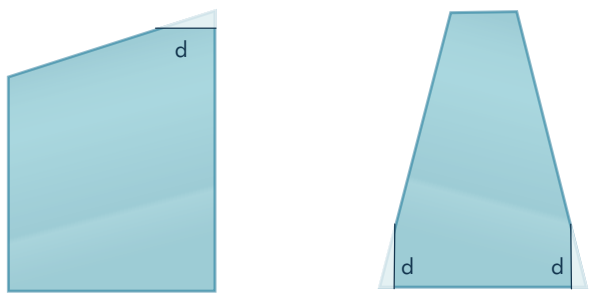

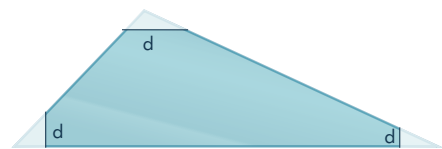

*or tempered where required by code

CLIPPED CORNERS

Certain corners cannot be manufactured, and the points need to be "clipped" and replaced with a straight side. The guidelines for clipped corners are shown below.

NOTE: Dimensions to pre-clipped corners must be provided.

SHAPE	RULES & CONSTRAINTS

SageGlass® is the pioneer of the world's smartest dynamic glass. Electronically tintable SageGlass tints or clears automatically to optimize daylight levels while preventing heat and glare without the need for blinds or shades. SageGlass delivers superior comfort, enhances occupant well-being and saves energy. As part of Saint-Gobain, SageGlass is backed by more than 350 years of building science expertise that only the world leader in sustainable environments can provide.
